UFCR Flowjo Portal Enrollment Information

Thank you for your interest in the Flowjo Portal system managed by the UFCR.

The portal system allows online authentication by the customer for use of the Flowjo data analysis software on a personal computer.

Once a Flowjo portal account is created by the end user, an invitation will be sent to that account to activate it for use. Once active, a login to the portal account enables the computer from which the account was accessed to operate the latest version of Flowjo software available.

The current UFCR portal account runs from 10/12/23 to 10/11/24. Licenses purchased during the current term will be pro-rated in cost based on the time remaining. Full annual cost of a license is currently $235(approx $20 per month).

To request portal licenses, please do the following:

1. Create a portal account at cloud.flowjo.com. An email with the @umn.edu domain must be used to create the account. This can be a personal email or an email account created for the lab.

2. Use this form to provide the required information for purchase including the email address of the new portal account that has been created.

3. An invitation will then be sent to the email address used for the portal account to enable activation of the account.

Please contact us at flowsort@umn.edu with any questions.
